

*Is there enough oxygen in your drinking water?
Do you get regular water supply in your home?
Do you know percapita availability of water to go down below
scarcity level by 2025?
Are we doing enough to recycle water?
Can Archaeology teach us water management?*

**SOCIETY OF SOUTH ASIAN ARCHAEOLOGY (SOSAA)
PRESENTS WORKSHOP ON**

Water Management, Past and Future- An Archaeological Perspective

(A workshop aimed at generating awareness regarding water management, water-related standardization, share knowledge and best practices, diffuse needed solutions and Archaeological examples related to water management and how they can contribute to present day water management issues)
