

Conserve Water

S. URMILA

M.A ARCHAEOLOGY

Water, Water everywhere, not
a drop to drink

When Colridge meant it,
he meant to the modern beings

Pepsi, Cola, Spirit, Mountain Dew

The new Quencher, the new substitute.

People say they don't get water,
when they waste it over their
bath & soapy lather

TV serials, how can it be missed
who cares, water is running,
the programme can't be ditched.

We have conference over
conferences

We have fights, we have
forums

None of them prefer anything
than mineral water

Fight for clean water, clean
dams

A Fight on unrealistic facts

Save water, can be made
on posters

Written by great writers

What we need is a sensible
mind at this hour

For dont forget, the need
is ours.
